

# Sprint 3 Report

Enroll Smart 5/21

## Things to stop doing

- Having inconsistent scrum meetings, or if scrum meetings are not possible then daily updates in Slack

## Things to start doing

- Consistent daily updates
- Demos during Scrum meetings
- Update the Scrum board often
- The Scrum board should have smaller tasks to gauge progress better

## Things to keep doing

- We should continue having daily scrum meetings to stay updated on the team's status and check whether we are on track to fulfill the deadlines on time every day.
- We should keep having the majority of the meetings in person with most of the team members present to keep the communication strong and smooth, and avoid having hybrid meetings.
- Keep using Figma for UI/UX as well as UI libraries to make good-looking, functional webpages
- 

## Work completed/not completed

### Completed User Stories:

- Rate my professor api working
- Backend PISA API course fetch

### Incomplete User Stories:

- Send notifications when the wishlisted class becomes available
- Allow users to add classes to a wishlist
